Cat® Utility Grease

For low-load, low-speed applications

NLGI Grade 2

---

**Discover the Difference**

**Reduced Component Wear**—Resists softening and protects parts from wear.

**Corrosion Protection**—Resists oxidation and protects metal against rust. Will not corrode or damage steel, copper bearing alloys or conventional seal materials.

**Excellent General Purpose**—Lithium Complex grease for low-load, low-speed applications where moisture conditions are low.

* All temperatures are Operating Temperatures

**Recommended Use**

Cat Utility Grease is recommended for grease fittings and lubrication points in low-load, low-speed applications, at operating temperatures ranging from -20°C to +140 °C (-4°F to +284 °F).

**Health and Safety**

For information on proper use for health, safety and environment, please refer to the Material Safety Data Sheet (MSDS). Read and understand the MSDS before using this product. Always observe good hygiene measures. For a copy of the MSDS, contact us or visit the web at [www.catmsds.com](http://www.catmsds.com).

**CAT DEALERS DEFINE WORLD-CLASS PRODUCT SUPPORT.**

We offer you the right parts and service solutions, when and where you need them.

The Cat Dealer network of highly trained experts keeps your fleet up and running to maximize your equipment investment.
