

# Cat<sup>®</sup> Reman Coverage for Hydraulic Excavators

## Unmatched coverage, dependability, and proven performance

When your Caterpillar<sup>®</sup> Hydraulic Excavator requires service, you need options that get you back to work quickly, affordably, and reliably. Caterpillar's extensive Reman coverage provides reliable, low-cost solutions for your machine's needs. Through the use of state-of-the-art salvage techniques, strict reuse guidelines, advanced manufacturing systems, and unequalled quality control, Caterpillar returns components to their original performance specifications.

Because we are in the business of returning end-of-life components to same-as-new condition, we reduce waste and minimize the need for raw material to produce new parts. Through remanufacturing, we make one of the greatest contributions to sustainable development—keeping nonrenewable resources in circulation for multiple lifetimes.

# Cat® Reman Coverage for Hydraulic Excavators

## Unmatched value

Cat® Remanufactured products are your best value. Reman products feature affordable prices and same-as-new warranties—backed by Caterpillar's commitment to quality and performance. In short, you're ensured of factory quality at substantial savings. No one else can match the coverage, dependability, or proven performance of Caterpillar Remanufactured products.

## Unmatched convenience

You won't have any trouble finding the remanufactured product you need for your hydraulic excavator. Reman products are available when you need them, right off the shelf in our parts department. Your machine gets back to work quickly, putting you back on schedule.

We can determine core credit quickly and easily with our simple core acceptance criteria. There's no waiting for core credits, either. Our quick visual inspection is all that's needed. Plus, because Cat components are designed and built for a second life, we can often award credit even when you may think a component has no value left.

Call us today to learn more about Cat Remanufactured products and our core credit policy. We'll show you how Cat Reman product availability for hydraulic excavators helps you reduce downtime, recover lost hours in the field, and lower overall life cycle costs.

Lower your owning and operating costs and maximize equipment performance with Cat Reman products. We offer the broadest line of Cat Reman components in the industry for hydraulic excavators.

## CAT® DEALERS DEFINE WORLD-CLASS PRODUCT SUPPORT.

We offer you the right parts and service solutions, when and where you need them.

The Cat Dealer network of highly trained experts can help you maximize your equipment investment.
