

Cat[®] Reman Cylinder Heads and Valves

Built to meet your engine's demands and lower your costs through remanufacturing

Cylinder heads and valves play vital roles inside your engine. They seal in the pressures of combustion, circulate coolant to maintain proper operating temperatures, and provide superior compression resistance.

When you need repairs, Cat[®] Reman Cylinder Heads will get you back to work quickly, reliably, and affordably. Completely remanufactured using the latest technology and updated to include critical design improvements, they provide same-as-new performance and long life. To prove it, Caterpillar backs Reman Cylinder Heads with a same-as-new parts warranty.

Good for Customers. Good for Business. Good for the Environment.

CATERPILLAR[®]

Cat® Reman Cylinder Heads and Valves

Strict remanufacturing processes

- Reman Cylinder Heads are 100% magnafluxed to detect cracks, erosion or other damage, and are updated to include critical engineering changes.
- The bottom deck is resurfaced to ensure a tight seal and to help prevent combustion gas and coolant leaks.
- All critical wear and sealing components are replaced with new Cat parts.
- Cat Reman Cylinder Heads are pressure tested for leaks before they leave the factory erosion or other damage, and are updated to include critical engineering changes.

Product Options:

Certain applications sometimes require heads with a new casting so Reman may offer both a Reman cylinder head or a Upgrade-to-New (UTN) cylinder head.

UTN cylinder heads:

- Include Reman components within the cylinder head group but will always use a new head casting.
- Have a unique UTN Reman part number.
- Are priced higher than Reman heads.
- Allow partial core credit when used to replace competitive heads.

With excellent quality, multiple options to choose from, and off-the-shelf availability, Cat Reman cylinder heads minimize your turnaround time and help you control your costs making them an excellent alternative to rebuilding or buying new.

Generous core acceptance policy

Our simple core acceptance criteria allow a quick determination of core credit. We visually inspect the core on the spot, providing an immediate decision on core condition and credit.

Comprehensive service and support

When your engine needs service, our professional technicians have the training and tools to get you back to work quickly. We can provide off-the-shelf component availability backed by the Caterpillar worldwide parts network.

Give us a call or drop by our parts counter. We'll show you how we can help lower your costs with the highest quality engine parts, a wide range of Exchange parts—including Cat Reman components—and the most comprehensive service and support available.

CAT® DEALERS DEFINE WORLD-CLASS PRODUCT SUPPORT.

We offer you the right parts and service solutions, when and where you need them.

The Cat Dealer network of highly trained experts can help you maximize your equipment investment.
