

# Cat<sup>®</sup> Remanufactured Drive Lines

## A lifetime of performance and value

Cat Reman is providing coverage of remanufactured drive lines for select models of wheel loaders and off-highway trucks. Remanufactured drive lines are balanced with new spider bearings and tubes installed. All the latest engineering changes and updates are included to ensure these drive lines deliver same-as-new performance at a fraction-of-new price.

Caterpillar designs and manufactures the highest-quality drive line systems in the industry. State-of-the-art Cat Reman salvage technologies, strict reuse guidelines and unequalled quality control systems guarantee the precision and quality originally specified are fully preserved to help deliver a lifetime of performance and value. Remanufactured drive lines provide:

- Lower-cost service options
- Same-as-new reliability and service life expectancy
- Off-the-shelf availability to reduce downtime for repair
- Latest design improvements
- Worldwide warranty protection

**Caterpillar. The difference counts.™**

Cat<sup>®</sup> Dealers define world-class product support. We offer you the right parts and service solutions, when and where you need them.

The Cat Dealer network of highly trained experts keeps your entire fleet up and running to maximize your equipment investment.
