

Radial Seal Air Filter Retrofit Kits

For Select Large Mining Trucks

Maximum Engine Performance.

Maximum Engine Life.

Cat® Radial Seal Air Filter Retrofit Kits allow customers to upgrade their air filter system and maximize engine protection with the best filtration technology on the market. Each kit comes complete with the upper filter housing including a primary and secondary filter ready for quick installation. Once installed, there are no tools required to change filters, significantly reducing routine maintenance time and cost.

Cat® Radial Seal Air Filters are an advanced filtration system designed for strength and long life. The large pleated paper media, positive pleat spacing and pleat support provide up to 50% more capacity. When used with the Air Filter Service Indicator, filters can be serviced only when necessary, avoiding harmful over-servicing.

Radial Seal Air Filter Retrofit Kits

Coverage

Sales Model	Applicable Serial Numbers	Kit Part Number	Kits required per truck
785C	APX368-up	379-4810	2
789, 789B, 789C	9ZC, 7EK, 2BW	382-4375	2
793, 793B, 793C, 793D	3SJ, 1HL, 4AR, 4GZ, ATY, CBR, FDB	378-3022	2
797, 797B	5YW, JSM	379-4810	5

- Each kit includes complete upper housing, gaskets, covers, mounting hardware, primary and secondary filters
- The bottom housing (pre-cleaner/dust ejector housing) is not included with the retrofit kit. Contact your local dealer for more information.

Features

- Pleat Support and Positive Pleat Spacing
- Densely pleated filter paper
- Heavy-duty metal inner and outer wrap
- Rugged corrosion resistant housing
- Housing cover latch system

Benefits

- Prevents pleat bunching and ensures optimum filter media surface area
- Large surface area provides superior capacity without restricting airflow
- Increases structural strength and durability
- Quick, easy bolt-on installation and long lasting service
- Easily pop off the cover and quickly change all filter elements

Get 100% of Filter Life.

Use the Cat Air Filter Service Indicator to get an accurate, continuous reading of how much life remains in your filter element. The easy to understand graduated readings let you change the filter only when needed, so you get the lowest possible cost per hour. Talk with your Cat dealer today about air filter service indicators.
