

# Front Wheel Cover with Sight Glass Retrofit Kit

For Cat® 785, 785B, 785C, 785D, 789, 789B, 789C, 793, 793B, 793C and 793D Large Mining Trucks

Caterpillar is pleased to announce the availability of a Front wheel cover with sight glass retrofit kit for many Large Mining Truck models. The sight glass improves serviceability, by providing visual access to bearing oil level and reducing front wheel oil level inspection time. Wheel covers without sight glasses require removal of the drain plug to check oil level.

# Cat® Front Wheel Cover With Sight Glass Retrofit

## Machine Coverage and Part Numbers

Sales Model	Serial Number	Kit Part Number	Comments
785	8GB	421-8353	Requires 2 QTY per Truck. One for LH Front Wheel & One for RH Front Wheel
