

# Retrofit Front Window Platform System for Cat® 992K and 992G Wheel Loaders

## Enclosed Windshield Platform Access System

A front window access system for the 992K and 992G wheel loaders focuses on two customer concerns safety and ergonomics. The front window access system provides adequate space for all operators. Platforms with toe kicks and handrails form an enclosed system to guard against slips and falls during routine windshield washing or maintenance. This system also provides additional tie off locations to facilitate any work requiring a safety harness.

# Cat® 992G and 992K Window Access Platform

## Coverage

Sales Model	Serial Numbers	Kit Part Number
992K	H4C	399-0700
992G	AZX 7HR ADZ	399-0700

The front window access system for the 992K and 992G offers customers an integrated solution, designed for easy installation and long service life.
