# CAT® FUEL LOSS MONITORING KIT

## KNOW WHEN FUEL GOES MISSING

The Cat® Fuel Loss Monitoring Kit recognizes when a non-running machine has lost more than 10% of its fuel, indicating potential fuel theft, and alerts you of the loss via text or email. You can choose your alert preferences in the VisionLink® web-based application to ensure you get the information you need, when you need it.

## CAT FUEL LOSS MONITORING KIT

### FEATURES

- + After 10% fuel drainage, the Fuel Loss Monitoring Kit notifies you of fuel loss.
- + Options for text or email notification are configurable through VisionLink.
- + The system functions when the machine is turned off, so you know the loss isn't a result of production.
- + The kit can operate for up to 10 days on its internal battery before drawing machine power, and it works on both Cat and mixed-fleet machines.

### REQUIREMENTS

- + 12V or 24V machine systems
- + Factory-installed telematics hardware (PL641 or PLE641) or aftermarket-installed hardware (PL542)
- + Product Link Essentials subscriptions

## CAT DEALERS DEFINE WORLD CLASS PRODUCT SUPPORT
