

CAT® CONFIGURABLE ASSETIQ™

LET'S DO THE WORK.™

INSIGHT INTO PERFORMANCE AND CONDITION

Cat® Configurable AssetIQ™ is a field-installed solution for collecting information on Cat or other manufacturers' equipment. Whether your machine or engine is mechanically controlled or has basic electrical controls, Configurable AssetIQ kits give you flexibility and insight into the performance and condition of your equipment. An array of sensors is available to customize your application. Once the kit is installed, it will be able to communicate critical engine parameters such as engine run hours, engine oil pressure, coolant temperature, and more.

CAT CONFIGURABLE ASSETIQ™

FEATURES

- + Improves production efficiency with remote monitoring of entire fleet.
- + Ability to monitor engine utilization.
- + Allows for optimized performance
- + Early alerts preventing unplanned downtime.
- + Scalable monitoring solutions.
