

WHAT YOU CAN'T SEE CAN HELP YOU.

THE ADVANTAGE OF CAT® GET ARE HIDDEN IN PLAIN SIGHT.

Once the paint wears off, most ground engaging tools (GET) look pretty much the same. But that's when Cat® GET really shines. The built-in advantages of Cat bucket tips, edges and wear systems aren't always easy to see, but the difference they can make on machine productivity, uptime and your bottom line can be a real eye opener.

Turn this page over to take a closer look at some of the "hidden" benefits of Cat GET.

WHY CHOOSE CAT GET?

REDUCED OPERATING COSTS

Caterpillar offers Cat GET systems for a wide range of needs. Some are built to optimize production, others are designed for optimum cost per hour and all are built to deliver long wear life under demanding conditions. Your Cat dealer will work with you to balance GET selection with lifecycle and production needs to help you achieve the lowest cost per ton.

BETTER PRODUCTIVITY

The equation is simple: Better penetration means more tons per hour. In fact, using the right Cat GET can improve machine performance by anywhere from 5% to 20%.

LESS MACHINE WEAR & TEAR

Cat GET's ability to easily penetrate tough material also reduces the impact stress transferred to other machine components, such as lifting arms, hydraulic systems, and sticks and booms.

MORE UPTIME

The extended wear life and quick-change retention systems contribute to more uptime, as well. In the end, Cat GET systems offer reduced changeout downtime and less maintenance over the life of your equipment.

INDUSTRY-BEST AVAILABILITY

Supplied by the worldwide Cat dealer network, Cat GET offers the industry's best availability. Caterpillar and Cat dealers around the globe are working with local bucket manufacturers to bring you the unmatched services and support that come with Cat GET. Through this collaboration, regardless of bucket manufacturer, we'll help you find the right products to meet your performance and parts availability needs.

GET BENEFITS

- + **Designed for specific machines**
- + **Maximize whole-machine performance**
- + **Lower GET maintenance**
- + **Guaranteed availability** with Cat GET Customer Value Agreements (CVAs)
- + **Active GET monitoring programs**
- + **Optional dealer removal and installation**
- + **Fleet Bucket Program** covers any machine, make or model
