

# CAT® GROUND ENGAGING TOOLS FLEET BUCKET PROGRAM

## CAT® GET FOR YOUR BUCKETS

Selecting the right ground engaging tools (GET) is a key step in managing the lifecycle of your buckets.

Equipping your preferred brands of buckets with Cat® GET can help you maximize the benefits of component standardization and range of services from your local dealer and the global Cat dealer network. You can select services customized to your specific needs under the Cat Customer Value Agreements to streamline component and bucket lifecycle management through the Cat Bucket Pro app, cost-per-ownership agreements, repair and rebuild options or site-specific removal and installation labor.

## HOW IT WORKS

Caterpillar recognizes that your bucket needs may be served locally. Caterpillar and Cat dealers are working around the globe with an increasing number of bucket manufacturers to bring you Cat GET and services to help you achieve your goals. Asking for Cat GET during your next bucket build, with your preferred bucket manufacturer, enables you to access a range of services through your local Cat dealer network.

**Reach out to your local Cat dealer to talk about the Cat Fleet Bucket Program and adding Cat GET to your mixed fleet buckets.**

## FEATURES AND BENEFITS

Customers around the world who select Cat GET during their bucket builds are seeing real results. Standardizing Cat GET across your fleet of buckets can help you increase in wear life, decrease downtime and even increase productivity. Through the Cat Fleet Bucket Program, we can work with your preferred bucket manufacturer to meet your critical needs by providing:

- + Cat GET customized for your buckets
- + Cat GET, backed by Caterpillar Limited Warranty
- + Local and global Cat dealer support and expertise
