

# ENHANCED OPTIONS FOR IMPROVED COMFORT, SAFETY AND PRODUCTIVITY

## COUNTERWEIGHT KITS FOR CAT® NEXT GENERATION MINI EXCAVATORS

Do you want to enhance your Cat® next generation mini excavator with improved comfort, safety or productivity features? Caterpillar offers a wide variety of field-installed aftermarket kits specially developed for Cat mini excavators.

For applications or job sites that require increased stability like heavy craning and/or swinging applications, a counterweight added to your machine provides better load balance and saves on premature bearing wear while enhancing operator safety. Available as a field-installed kit, the Cat next generation mini excavator Extra Counterweight Kit is designed to improve the operator experience and provide an option for customers to modify their existing machine to take on new and challenging tasks requiring additional stability.

### KEY FEATURES

- Kit includes counterweight and hardware for easy installation
- Adds stability for enhanced safety
- Improves operator experience

Without Counterweight Kit

With Counterweight Kit

# COUNTERWEIGHT KITS
