

ENHANCED OPTIONS FOR IMPROVED COMFORT, SAFETY AND PRODUCTIVITY

GUARD KITS

FOR CAT® NEXT GENERATION MINI EXCAVATORS

Do you want to enhance your Cat® next generation mini excavator with improved comfort, safety or productivity features? Caterpillar offers a wide variety of field-installed aftermarket kits specially developed for Cat mini excavators.

For job sites that require land clearing, lifting material, demolition or any number of applications requiring an attachment, next generation mini excavator Guard Kits added to your machine provide increased protection for both the operator and your equipment. Available as field-installed kits, the Cat next generation mini excavator Guard Kits are available in a variety of configurations designed for heavy-duty jobs where additional protection is required while providing easy access to windows for cleaning, enhanced operator experience and the option to modify existing machines to take on new and challenging tasks.

GUARD KIT CONFIGURATIONS
